We are limited supply on this and are not in a position to send.

We are in the process of finalizing allocation plans and that is driving this decision. Just since that isn't finalized yet was providing some additional information to help in the message for the customer at this time.

Thank you Bonnie.

Gail – I recommend release. Sheet has been updated.

All,

Morris and Dickson has this product in primary position on their source program. Their usage is increasing due to the fact that they could not secure product from us to meet their entire demand due to our disruptions in supply. They try to hold 6 weeks inventory so they are trying to meet that objective and supply their customers with our product vs. our competition.

I would like for this order to ship but realize that the SOM Team and Jennifer B. have the final decision. Please advise on your decision.

Thank you,

We are in the process of preparing allocation plans due to limited supply on this sku. I recommend we push back to cancel these orders (communication to the customer focusing on the fact that their orders are considered excessive). They are likely to receive the allocation letter later this week.

I will relay to the NAM.

Jennifer,

We have Morris and Dickson order 70248102 on U2 hold for METHADONE HCL 10MG TABS. Their MTD order quantity exceeds all other quantities for the past 18 months. Additional insight is appreciated. If you do not have additional information, I will inquire with the NAM.

Thank you,

Jen
